# Why Cryptocurrency?

The crypto market has disrupted global finance, trade, and many more industries with unique capabilities to solve complex economic and social issues utilizing smart contracts and unique currency features (often called tokenomics). The \$EVEREST Token is a utility token for EVERESTCRYPTOCOIN, and a promising ecosystem of entertainment capabilities, financial tools, and wealth generation for our investors.

# Our Great Leader's Mission

**\$EVEREST token not only has limitless meme token possibilities ( probably the most marketable token you could ask for) but also implements:**

## **Solid Mechanisms**

❖ 10% fees on each trade is going to be taxed and distributed as follows:

1. 5% will feed the liquidity pool
2. 5% will remunerate all to \$EVEREST holders

## **Innovative Identity Use Cases**

**\$EVEREST identity will be an assets on several businesses:**

1. \$EVEREST NFT's
2. \$EVEREST MECHANDISE
3. \$EVEREST PAYMENT SYSTEM

EVEREST CRYPTO

## Community-Driven & Fair Launch

We discuss every decision with our community before doing anything (E.g. Our current members chose a fair release in a poll)

## Auto-Liquidity Pool

Automatically generate liquidity towards PancakeSwap's pool from every transaction (5%)

## Earn \$EVEREST by Holding \$EVEREST

Every transaction (buy and sell) rewards holders 5% according to their stake!

# Investor Benefits

## Safety

100% of LP tokens burnt  
(auditable on BscScan)

## Transaction Fees

10% fees on all transactions  
split between holders and  
liquidity pool

## \$EVEREST Team Hates Whales!

- Max allowed purchase per transaction capped to 200 Billion (0.05% of total supply)
- \$EVEREST will start with 5 BNB in liquidity so no whales will be present
- The transaction limit gets increased as more coins get purchased to avoid early pump and dumps

# The Code of Wealth

10% fees on all transactions split between  
holders and liquidity pool

```
uint256 public _taxFee = 5;  
uint256 private _previousTaxFee = _taxFee;
```

Allocating 5% fees on transaction to supply liquidity

```
uint256 public _liquidityFee = 5;  
uint256 private _previousLiquidityFee = _liquidityFee;
```

Avoiding whales by capping the max purchase to 200 Billion

```
uint256 public _maxTxAmount = 200000000000 * 10**6;  
uint256 private numTokensSellToAddToLiquidity = 2000000000000 * 10**6;
```
